

City of Las Vegas Safekey Reopening FAQs

- 1. When will Safekey services resume?** City of Las Vegas is planning to open Safekey sites on March 1, 2021 contingent upon sufficient enrollment numbers for each site.
- 2. When will it be determined if a Safekey site is going to be opened or not?** Site openings will be dependent upon registration numbers as of Tuesday, February 23rd. All registered families and school administrators will receive an email notification on February 24th regarding whether or not their site will open on March 1st.
- 3. Who is eligible to participate in Safekey?** Students in grades Kindergarten through 3rd, who attend CCSD schools and will be participating in the hybrid instructional model may register and participate in Safekey at their school site. Students may only attend Safekey on the days that they attend in-person instruction at their school for their specific cohort.
- 4. How can families register for Safekey?** Safekey registration is currently open and will remain open until the end of March. New families must visit: www.lasvegasnevada.gov/safekey to register. Returning families must log in to their account at www.lasvegasnevada.gov/safekeypayments and click on the **Registration** tab to register. Families will need to know their cohort assignment before they can register.
- 5. What is the cost for Safekey?** There is an annual registration fee of \$20 per child, per account. Morning fees are \$7 per child, per day. Afternoon fees are \$10 per child, per day.
- 6. What will the hours of Safekey be?** The Safekey program hours may vary across sites. Morning programs start as early as 6:30 a.m. until the morning bell and is only offered at select locations. The afternoon programs run from the dismissal bell until 6 p.m. For a listing of program locations and hours see the **City of Las Vegas Site Information** link at the bottom of our webpage: www.lasvegasnevada.gov/safekey.
- 7. Will there be Safekey on Wednesdays when both cohorts are doing virtual learning?** No, the Safekey program will be closed on Wednesdays. The city of Las Vegas offers a full-day distance learning support program at 10 locations throughout the valley. More information can be found here: www.lasvegasnevada.gov/VegasStrongAcademy.
- 8. How many students will be allowed in the Safekey program?** Each Safekey site will be limited to a maximum of 30 students per day, per a.m. and p.m. session. This may vary slightly depending on room capacities and the needs of each specific school/site.
- 9. Will students from different classrooms and grade levels interact with each other during Safekey?** Yes, because Safekey operates in one programming space students will not be separated by grades or classrooms, however physical distancing will be enforced, face masks will be required, and all shared equipment will be properly disinfected.

- 10. Will safety and cleaning protocols be in place during Safekey?** Yes, the Safekey program will adhere to strict cleaning, disinfecting, and physical distancing guidelines set forth by the Center for Disease Control and the Governor's mandates. All students will be required to complete a health and wellness waiver upon registration and complete a temperature check and screening process upon check-in/out of the program each day. Students and staff will be required to wear masks.
- 11. What if a child gets sick during Safekey?** Every Safekey site will have a designated quarantine room for any participant who displays symptoms of illness during the program time. If it is during the morning program, the child of concern will not be released to the school but will require a parent to pick them up from Safekey even if it is after the morning bell. If a child becomes ill during the school day, the child of concern will not be released to Safekey but instead will require a parent to pick them up from the school, even if it is after the dismissal bell.
- 12. Where will Safekey be held?** The Safekey program will be held in a space designated by the school and will have adequate space for students to physically distance. Although school playground equipment use is prohibited, the Safekey program may utilize the field and the blacktop for outdoor activities.
